James E. Cosby Came Near Burning to Death Sunday Morning.

AROUSED BY CRIES OF AGONY.

The condition of James Edward Cosby, the young man who was almost suffocated and burned to death at his home, No. 494 West Marshall Sireet, Sunday morning, is somewhat improved, though he is not yet out of danger. His physician, Dr. C. A. Blanton, says he cannot tell the extent of Mr. Cosby's injuries, but that he has hopes that his patient will be able to be out within the next week or ten days.

He was on the verge of taking a bath, and was actually in the tub. The gas stove in the bath-room had been lighted, in order that the room might be heated. When Mr. Cosby had gotten into the tub he noticed that gas was escaping; he endeavored to raise up and fell backward in a faint. It was the last the young man knew.

In attempting to do this he fell over the stove, and the latter, almost red hot, tilted over and rested on his left side. One of his sisters heard his cries and rushed to the bath-room. She found the door locked from the inside. The girl ran for an axe and broke the door open. A ghastly spectacle greefed her as she entered the small apartment. She saw her brother prostrate on the floor, with the flesh on his left side sizzling from the heat of the gas stove, which was resting against the body, Miss Cosby quickly pushed the stove away and called for help.

Others about the house rushed to the assistance of the young man, who, still unconscious, was carried to his bed and Dr. Blanton, the family physician, was

John Sherman, former representative in the House for a long term and a member of the Senate and twice holding cabinet positions, died at his residence in this city at 6:45 o'clock this morning, in the 78th year of his age. His death had been ex-pected for some days and loving friends

Since Saturday afternoon Mr. Sherman had been for the most of the time unconscious, railying partially at intervils when some slight nourishment was given him. SKETCH OF HIS LIFE.

Former Secretary of State John Sherman, was born in Lancaster, Ohio, on the 10th of May, 1823, and was left an orphan at an early aga. His early schooling did not extend over many years. At fourteen, he was prepared for the sophomore class, but he went no further at college, preferring to become self-supporting. He was first occupied in surveying, and after that, in 1841, he studied law with his brother Charles, and was admitted to the orother Charles, and was admitted to the bar, He was a delegate to the Whig con-vention, which in 1848, nominated Zach-ary Taylor for President, and in 1852 to the convention which nominated Winfield Scott. He first entered Congress as a representative in 1855. This was about the opening of the eventful period leading up to the war of the secession, and he gained credit through his participation in the great debates, growing out of the slavery question. It was through his efforts that the law authorizing treasury notes, was passed in 1890 and adequate provisions were made for the support of the Government. On the resignation of Salmon P. Chase, he was elected to the United States Senate, taking his seat in 1861, and he served in that body until 1877, when he retired from Congress and became Secre-tary of the Treasury under President Hayes, whose elevation to the presidency he had strongly advocated. In 1881 he again returned to the Senate, retaining the seat there from that time until Mc-Kinley became President, when he re-
